THE COUNCIL OF EDUCATION

PROMINENT TEACHERS DISCUSSING THE USES OF BOARDS.

LITERATURE FOR INSTRUCTORS - READING CIRCLES-THE WORK OF THE MEET-

ING IN ST. PAUL.

St. Paul, Minn., July 5.-The National Council of Education began its four-days' session in the Chamber of Commerce rooms yesterday, President Selim II. Pea body, of Champaign, Ill., in the chair, and State Superintendent Kithle, of Minnesota, acting as secretary The session opened with prayer by Professor J. L. Pickard, of Iowa, and Chairman Merrill, of the St. Paul Executive Committee, extended a hearty welcome to the members of the council. President Peabody adtressed the council in some remarks on patriotism

among American young people. The regular programme was begun by the presenta-tion of a report on "School Superintendence in Cities," by Dr. E. E. White, of Ohio, chairman of the Committee on City School Systems. The report held that the Board of Education was a village organization, and that no board had got much beyond the primitive stage, and that it is a failure in cities. The really successful schools are so because of competent superintendents to schools are so because of competent superintendents to whom the boards have entrusted the schools. Educa-tion is something which cannot be managed by the ignorant, and the best teachers and superintendents are spoiled by the ignorant interference of Boards of Education. The general discussion of the paper lasted three hours. Aaron Gove, Superintendent of the Denver schools, thought no superintendent should be 8 dictator, that he should plan with his co-workers, and he believed the schools would be more successful if

that office were permanent.

Mrs. B. A. Horisdale, of Ann Aebor, Mich., believed that the school system should be divided into the three departments of accounts and records, of construction and repairs, and of instruction and discipline.

Dr. W. A. Harris, United States Commissioner of Education, thought an elected superintendent might be advisable if such officer could be a teacher, and by being elected not become too much of a politicien.

Dr. White here said that there was nothing in the aper to put the superintendent above the School loard. He must have a position of well defined subordination, responsible, but not above. The County Superintendent is recognized by law; the State Supertendency is defined, and is not above the State Board. The City Superintendent must have the initiatory ac tion, not be independent, but co-ordinate with the Board.

Professor Fitzpatrick, of Leavenworth, Kan.; F Louis Solden, of St. Louis; Superintendent J. M. Underwood, of Kansas City, and others joined in the discussion and the paper was finally approved by a vote of the council. The president appointed the following committees: On Nomination of Members-Messys. White, of Ohio

Pickard, of Iowa, Rounds, of New-Hampshire On Nomination of Officers Messrs. Allyn, of Illinois, On Nomination of Omers A State

Conway, of Tennessee, Baker, of Colorado.

On Standing Accounts—Messrs, Hinsdale, of Michigan,

Stevenson, of Kansas, James, of Nebraska.

The report of the Committee on Educational Litersture was presented by the chairman, W. E. Sheldon, of Boston, Mass. This paper divided the topic into a definition of educational literature, its value to student and teacher, and its direct and indirect in-fluences upon the American system of education, which zens in the Republic. The fourth point was the mission of reading circles as a means of disseminathave for their primary aim the training of good citiing correct principles of education. Each of the four topics was assigned to individual members of the committee, M. Payne, LL. D., defined educational literature, or educational classics, as dealing with principles rather than with facts, being intensely persuasive and reproductive. F. Louis Solden, of St. teacher renders him an efficient ally of the State and Nation. W. R. Garrett, of Nashville, Tenn., discussed the value of educational literature upon American systems of education.

"The Teachers' Reading Circle in Education" was subject of a paper by Mrs. D. Lathrop Williams, of Delaware, Ohio.

An interesting discussion followed, in which Superintendent Greenwood, of Kansas City; Commiss Harris, of Washington; Dr. White, of Cincinnati; W. B. Garrett, of Nashville; F. Louis Solden, of St. Louis; G. P. Brown, of Chicago, and Mrs. Williams participated. On motion of Professor Hinsdale the report was adopted.

Many subscriptions are pouring in at the headquartthey are in such small same that the aggregate is not more than sufficient to bring relief to those strikers with families who are most in need of help. T. H. Garside, president of the Operators' Union, received \$180.02 yesterday from sympathizers. The Tribune has received \$5 from "Reason" for the impoverished cloak-

the look in Surgery of the cloakmakers' in Suffolk-st. yesterday, when the weekly allowance was made to starving members, was beyond description, nearly 5,000 distressed men and women at some time in the day called and asked for help. A pretty little girl, the daughter of Henry Simon, who has been ordered to leave his miserable home at No. 141. Essex-st., received \$1 to support a family of five until to-morrow. Simon is sick in bed, and every article of clothing and farniture which could be spared has been pawned for food. There was not more than \$350 to be divided among over 4,000 persons, and the large majority were sent aways empty-handed. At the headquarters of the Cloak Cutters' Union, No. 45 Franklin-st. this rich union distributed \$2.500 to its striking members, each man receiving \$24. A meeting of the cutters will be held to-morrow morning at No. 134 Canal st.

Further attempts were made yesterday to settle the cigarmasters' stoke, but without success. There are 2.000 cigarmakers on atrike for a higher rate of wases in eight factories.

The International Stair Builders' Union has won its strike for a workday of eight hours, and contracts have been signed with the bosses for one year, beginning to-morrow. A general agreement has also been arrived at by the Housesmiths' Union and the boss iron work contractors.

WILL NOT WORE ON BULL PROME

WILL NOT WORK ON THE TROW DIRECTORY.

Chicago, July 5.- The office of R. R. Donnelly & Sons, Lakeside Publishing Company, was working half handed to-day, on account of a strike of Typographical Union printers on information received from New York. Out of sixty two men working yesterday, only Louis, discussed the value of such literature, and was followed by William Sheldon, of Boston, on the same subject, the latter devoting himself to the professional Trow Publishing Company's office, New-York. The subject, the latter devoting himself to the professional teacher, and holding that the broadest training of the Trow Company is the publisher of the New-York City Directory, and has always been a non-union office. When the new directory manuscript was hung on the hooks about a week ago the printers, some of whom were union men, decided that the some of whom were union men, decided that the time was ripe for changing the place into a card office, so they struck. It is said the Trow people simply shut down. Meagre knowledge of what was going on was in the possession of the men until yesterday, when they learned that the work had been sent out of town and that the Donnellys were doing it. Typographical Union No. 6, of New-York, then telegraphed to No. 16, in this city, ordering the men out. This order took effect this morning, and thirty-two men filed out of the office.

Mr. Donnelly, when asked about the matter to day said: "We can get all the men we want, and

ELECTRIC STORM IN NEW-JERSEY.

LIGHTNING DOING MUCH DAMAGE ALL OVER THE STATE-A FLOOD AT MILFORD.

Milford, N. J., July 5.- Last night min fell in tor rents for hours, causing the creek that flows through the eastern part of the town to overflow, the water sweeping away two large wooden bridges at Main and Little York sts., and doing great damage to property. The dwelling of William H. Slater was caught in the flood and almost swept away. Three of Mr. Slater's children who were in the house at the time became frightened and attempted to reach a hill near their were carried away in the current. Some men tracted by the screams of the children went to their rescue and managed to save Charles and Ada Slate ages seventeen and nineteen, respectively. They were taken out of the water by means of ropes. Daisy Slater, age seven, the youngest child, was swept out into the Defaware River and drowned.

At the height of the storm Abbott Fuller's barn, near Fullerton, was struck by lightning and destroyed, with its contents, including hay and farm implements. The frame building owned by William Teets, a carpet manufacturer, was lifted from its foundation and swept down into the creek against the iron suspension bridge at Eridge st. The building was demolished. The bridge was also badly wrecked. It was 162 feet long and cost \$11,000. The mildam on the property of W. and E. Thomas was also carried away, causing a loss of about \$7,000. A stone bridge which spans the creek about a mile below this place was also swept away. It is estimated that the loss on stock, buildings, crops, etc., will exceed \$100,000. The tracks of the Pennsylvania Railroad were badly damaged. A serious washout was caused at a short distance below the town, and about 100 feet of the tracks were torn up by the force of the storm. The trains conting both ways were flagged, and this prevented accidents.

Hightstown, N. J., July 5.—A fearful thunderstorm barn, near Fullerton, was struck by lightning and

were flagged, and this prevented accidents.

Hightstown, N. J., July 5.—A fearful thunderstorm
passed over this part of New-Jersey last night. All
of the farm buildings owned by William M. Duncan
were destroyed by fire, involving a loss of about
\$8,000. One horse, two mules and two cows perished
in the flames. The fire was caused by one of the
buildings being struck by lightning.

Asbury Park, N. J., July 5 .- During the storm night lightning struck the telephone and electric light wires at Asbury ave. and Kingsley-st. One of the wires was severed by the bolt and fell into the street.

Princeton, N. J., July 5.-The large barns and out buildings of Joseph Ely, a prominent farmer, near Cranbury, was struck by lightning last night and burned, with the contents, including several horses, burned, with the contents, including several horses, mules and other live stock. Samuel Duncan's barn and outbuildings were struck by lightning and also consumed, with nearly all their contents, on his farm only a few miles distant from the above place.

A TRAIN ACCIDENT DUE TO A STORM.

Cincinnati, July 5.—The passenger express on the Chesapeake and Ohio road, coming West, crashed into the rear end of a freight train at Rus sell, Ky., in a blinding rainstorm. A cinder train was on a side track, and the railroad men say that sell, ky., in a binding rainscond men say that it had been blown by a severe wind storm until the end of the rear car projected over the main track, on either side of which there is a bank three feet high. The engine struck the obstruction and dragged it several car lengths. The front of the engine was storn out and the track ploughed up for some distance. The baggage and express cars and the next two passenger coaches left the track and were thrown over on their sides. A rail was forced up through the floor of the second coach. The cluder train was dragged along and also badly wrecked. William Clemens, the engineer, was severely cut about the face and neck, Charles Boss, the fireman, was severely shaken up and sustained serious injuries about the body. An unknown man, from Huntington was injured internally, and was sent back to that place. The doctors prepended his condition serious,

NEW-ROCHELLE YACHT CLUB REGATTA

A FINE CONTEST BETWEEN THE ANACONDA

AND THE CLARA-THE WINNERS.

The New-Rochelle Yacht Club held its fifth annual regatta yesterday. The day was made for yachting, a large number of boats were entered and the sparkling waters of the sound were white with flying sails slip ping by the green shores. Commitians were at the helms of the yachts and sailed them well. The Gervalia, schooner, was sailed by Howard W. Coates, who won the prize in the schooner class, at the Larchmont regatta on the day before. No schooners en-tered against him, but he went over the course. Franklin Beams sailed the Anaconda and Dr. J. C. Barron the cutter Clara. The measurement of the New-Rochelle Yacht Club being on the load waterline ferced the Clara to allow time to Anacorda, though under the prevailing rule for determining sailing length, which takes into account sail area, the allowance would have been the other way. The Nimrod was sailed by Leon Abbett, jr., son of the Governor of New-Jersey; the Polly by Thomas L. Arnold, the Euribla by Charles Pryer, the Sasqua by Henry Andrews, the Leader by Otto Read, the Rosetta A. by T R. Smith, the Dorethy by L. R. Miller, the Edna by George Greive, and the Phyllis by W. J. Jones.

The wind was blowing a good sailing breeze from the northeast at the start, which was shortly after 1 o'clock. The yachts were allowed only five minute to cross the line after the starting signal, and all went over in a bunch, the Clara. Anaconda and Touris being in advance of the others. It was a run down to Execution Buoy, and some of the yachts set their akers.

The Operators' Union held a mass-meeting in Everett

TROTTING AT POUGHKEEPSIE. THE FAVORITES SUCCESSFUL IN EACH OF THE

Poughkeepsie, N. Y., July 5 (Special).-The harness sees at the Hudson River Driving Park this after noon were speedily decided, the favorites being suc-essful in each of the three contests, while the small elds made it easy to get the heats off. It was by far the most pleasant day of the week, but the tendance fell off, as there was little interest & the aces. Before the regular card was taken up, the 2:02 pace, left unfinished from yesterday, had to be dis Marendes and G. R. S. had each won two heats before the postponement last night, and the delay was to the advantage of the latter, as he was known to good in the first part of a race. Pools were about even money on him against the field, which really meant Marendes, when the fifth heat was called to day. The stallion was also known to be unsteady at critical times; and his staying qualities would be of no use, as another heat would decide matters. He was on his best behavior, however, and, going fast from the word, kept the pole and the lead for the mile, which he paced in 2:20 1-2, repeating his new record of the day before. G. R. S. seemed to be going easily in second place, and could probably have forced Ma rendes to make better time or be defeated, if he had been sent to win. The betting yesterday indicated that it was a cut-and-dried affair for the stallion, and his success to-day depended sol-ly on his ability to keep level for the final heat. Then came the last two races, both for trotters,

and each having only a trio of competitors. Mam brino Maid was backed at 4 to 3 over Marksman Maid and Femme Sole for the 2:20 class, and, after losing a heat, was a greater favorite than ever. Femme sole set a merry pace to the quarter in the first heat, making it at a 2:15 gait; and was ten lengths ahead at the half, in 1:09 1-4. The pace tired her, and she slackened speed so much that both the other mares passed her at the head of the stretch, Marksma Maid getting the heat in 2:23, as Mambrino made no special effort for it. After that the favorite lost nore time, going to the front early in the second heat, was never headed in that and the two following, the ast mile being merely good exercise for her, while her opponents were both tired, Femme Sole just able to get inside the distance.

field, and three heats were sufficient to end this class, the stallion being many seconds faster than Abbie V. and Honey B. The mares had a race for second money, each getting the place, in turn, in the first two heats. Then some pools were old on the result of the third heat, and Honey B. kept next to Andante for the mile. As it was evident That Abble V had not been driven for the place, all bets on the result were declared off, much to the disgust of those who were in the deal.

From this point most of the stables go to Philadelphia, where there will be two weeks of sport pro-

liminary to the Grand Circuit, beginning next Tuesday at the Philadelphia Driving Park, where there is a fine programme. Two stakes, of \$2,500 each, for 2:19 pacers and 2:27 pacers, are the most important moses of this meeting, a number of the best campaigners being named in each—eleven in the pace, and seven in the trotting stake.

THE BELMONTS DEFEATING THE MANHATTANS. Philadelphia, July 5 (special).—The Manhattan Club visited this city to day to fulfil their engagement with the local eleven. Unfortunately, however, the visitors were unable to bring over their strongest team iters were unable to bring over their strongest team, and consequently the game proved one-sided. The Beimont captain, winning the toss, elected to bay and succeeded in making 197 for four wickets before he deemed it advisable to declare his inning closed. Of this total Wood contributed 48 not out, Coates 48, Reany 40 not out, and Burr 38. With an hour and a half of playing-time remaining, the visitors took the bat, and were all disposed of before time was called, for 95 runs scored, and Pendergast hit hard for 30. Martin was the only other man to make double figures, scoring 10. The game therefore goes to Belmont by 90 runs.

teen feet and under. At 2:30 o'clock a blast from a horn was heard as a preparatory signal and the club burgee was lowered. At 2:35 the signal was given for the start and the boats started off driven on by a spanking breeze. The wind was westward throughout the race and the tide was ebbing, but the yachts forged their way ahead and rounded the first buoy one after the other. For the first half of the race it was difficult to pick out the winner, but after the buoy off Owl's Head was passed, the winning boat sailed away from the rest

of the flect and kept her lead to the finish. Classes A and B were entered to go over the course twice, Classes C and D only once. The wind diet down about 4:50 and several boats, far behind, dropped down about 4:50 and several boats, far behind, dropped out of the race. JERSEY CITY. THE ATTEMPT TO OUST MAYOR CLEVELAND. The taking of testimony in the Mayoralty contest was resumed yesterday morning before Commissioner Romaine. Michael J. Quigley for the defence was the only witness examined. He professed to be an expert and testified that he had examined the slips used by a canvasser named Stillwell for Mr. Perkins and compared them with the names on the poll book and compared them with the names on the poil book of the Third Precinct, IId District. The names on the slips had been copied from the poll book under the direction of J. T. Altemus. Quigley found that about seventy dive of the names were erroneously copied, that is, there were mistakes either in the name or the address. Counsel for Mr. Perkins objected to the testimony on the ground that the poll book itself was the best evidence and the objection was noted. The case will be resumed to morrow.

ROCKLAND COUNTY

The opening hop at the new Tappan Zee Hotel; South Nyack, last night, drew a large assemblage to enjoy the hospitality of Mr. Palmer, the proprietor, The spacious dining room was transformed into a ballroom and was handsomely decorated with ferns, bunting and flowers. When the orchestra struck up the "Welcome Overture," at D o'clock, 300 guests were in the ball-room. The lawns and broad plazzas were crowded with promenaders. At 11 o'clock re-freshments were served. The house and grounds were brilliantly illuminated with electricity, and the affair signified a most successful opening.
